Bali

A New spa experience  
The Ultimate Hydrotherapy

## Be Zen, Be Panyu, the new style of Spa

### THE TOTAL PLEASURE AND LUXURY OF AN OVERFLOW SPA

We would like to introduce to you the new “Bali“ spa, one of the most innovative and practical spas ever built. Our team of spa experts have years of experience at the highest level of design and engineering in the hydrotherapy industry . This expertise has enabled us to design and produce a spa of exceptional quality for you .

As well as the new unique overflow portable system, the new “Bali“ spa, has been designed also with comfort and quality of jet performance in mind. The ergonomically shaped seats allow the highest degree of relaxation and yet allow the optimum seating capacity possible within the space allowed. The choice of jets and their position within the spa has been engineered to give you the best hydromassage treatment possible. Each seat is individually designed to maximise the therapeutic massage effect with water pressure concentrated to give you the most soothing yet invigorating stimulation possible for your body.

All the “ Bali “ spas are equipped with an electronic command system that allows you to regulate and control all the features of the spa as well as giving you a visual display of the spa functions. Installed on the top rim of the spa , it indicates the perfect working of your spa.
